

ENVIRONMENTAL POLICY

Legrand Australia's business involves the design, manufacture, marketing and distribution of low voltage wiring accessories, lighting and emergency lighting systems.

Legrand Australia is committed to protecting and improving the environment in which we all live.

To achieve this we will:

- Comply with all the relevant environmental Laws and Regulations and strive to exceed environmental standards and guidelines wherever possible.
- Endeavour to prevent occurrence of air, water and soil contamination.
- Reduce the amount of waste by re-use and recycling whenever possible, and safely dispose of waste we cannot reclaim.
- Reduce and control environmental hazards within the workplace, such as noise.
- Provide appropriate environmental training and educate employees to be environmentally responsible.
- Continuously seek opportunities to improve our design and manufacturing processes, including packaging, while working towards maintaining a clean and safe environment.

Regular assessment of the system, procedures & objectives will be established to assure continuous improvement in environmental performance and shall be reviewed annually as part of the Quality Management Review.

This policy is communicated to all employees and available to all interested parties.

10th October 2014

Tony Berland
(Chief Executive Officer)
