

Photoelectric Smoke Alarms

Flexible & Cost-Effective
Interconnectable Installations

#LegrandImprovingLives

 **legrand**[®]

Better protected with interconnected

Stay alert and save lives with early fire detection with Legrand's interconnected photoelectric smoke alarms.

Interconnected smoke alarms provide the best protection for alerting occupants to fires, as when one smoke alarm sounds, all interconnected alarms sound simultaneously.

Two Installation Types

Radio Frequency (RF) Wireless Interconnectable

RF technology utilises a radio transmitter, which eliminates the need to run interconnecting wires between multiple floors & rooms of your home, allowing for a wireless interconnectable installation that's flexible and cost effective.

Product Specifications

Cat No.	643085	643090	643092	643088	643089	643091
